

Nutrient Management Field Day

Practical advice for maximizing nutrient use efficiency in cropland

Tuesday March 26th, 2024

9:00 AM - 1:00 PM

T.R. Meyers Farm
641 West Sydney Rd.
Pittstown, NJ 08867

<i>Time</i>	<i>Topics</i>	<i>Speaker</i>	<i>Keypoints</i>
9:00 - 9:10	Welcome	Laura Tessieri North Jersey RC&D	Opportunities with RC&D's AgAssist Commitment Program
9:10 - 9:15	NRCS Opportunities	Christian Bench NRCS	Brief discussion of NRCS programs and funding opportunities
9:15 - 9:45	Importance of Proper Soil Sampling	Nick Hamm Nutrien Ag	Learn how grid sampling and spatial tools can improve soil sampling precision
9:45 - 10:15	Evaluating Cover Crops for Nitrogen Application	John Stutzman CCA Stutzman Crop Consulting	How to account for cover crops contribution to N and varying application methods
10:15 - 10:30 Break			
10:30 - 11:00	Technology for Applicators	Marc Yoder Hooper	Learn about new tools for improved application and nutrient uptake
11:00 - 11:30	Dwarf Corn Advancements and Trials	Stacy Nansteel CCA Growmark FS	Does Dwarf corn meet your goals? Listen about the Dwarf variety trials in Warren County
11:30 - 12:15	Xyway Fungicide	Dr. Jake Jones FMC	The unique benefits of Xyway LFR to control foliar diseases in row crops and improve transpiration and root growth

Please RSVP to Courtney - (908) 894-4855 or
Nate - (908) 798-0401
